Term of the Agreement

Three-year term: April 1, 2019 to March 31, 2022

Wages

General Wage Increases (GWI) and comparability adjustments under low wage redress in the three sub-sector agreements – Community Living Services (CLS), General Services (GS) and Aboriginal Services significantly close the wage gap between our members and those that work in comparable positions in health.

General Wage Increases:

1) Effective the first full pay period following April 1, 2019, 2.0% GWI
2) Effective the first full pay period following April 1, 2020, 2.0% GWI
3) Effective the first full pay period following April 1, 2021, 2.0% GWI

Note: Wage protected employees will receive 50% of all general wage increases until their new wage rate meets or exceeds their existing wage rate in accordance with the collective agreement.

Low Wage Redress

The Community Social Services Sector made significant gains for low wage redress in the amount of $60 million. This money will bring the community social services sector even closer to their comparable jobs in health. We will discuss in detail what the amount for low wage redress is in our ratification meetings.

Comparability adjustments will be divided equally in each year of the agreement and will be effective April 1, 2019, April 1, 2020 and April 1, 2021 – at the same time as general wage increases.

Note: the remaining members are those who work in delegated programs in AS. These members will receive the same wage increases and adjustments to the Public Service Agreement.
